

# COVID-19 Statistical Review

Today's Analysis: Data from February 24, 2021

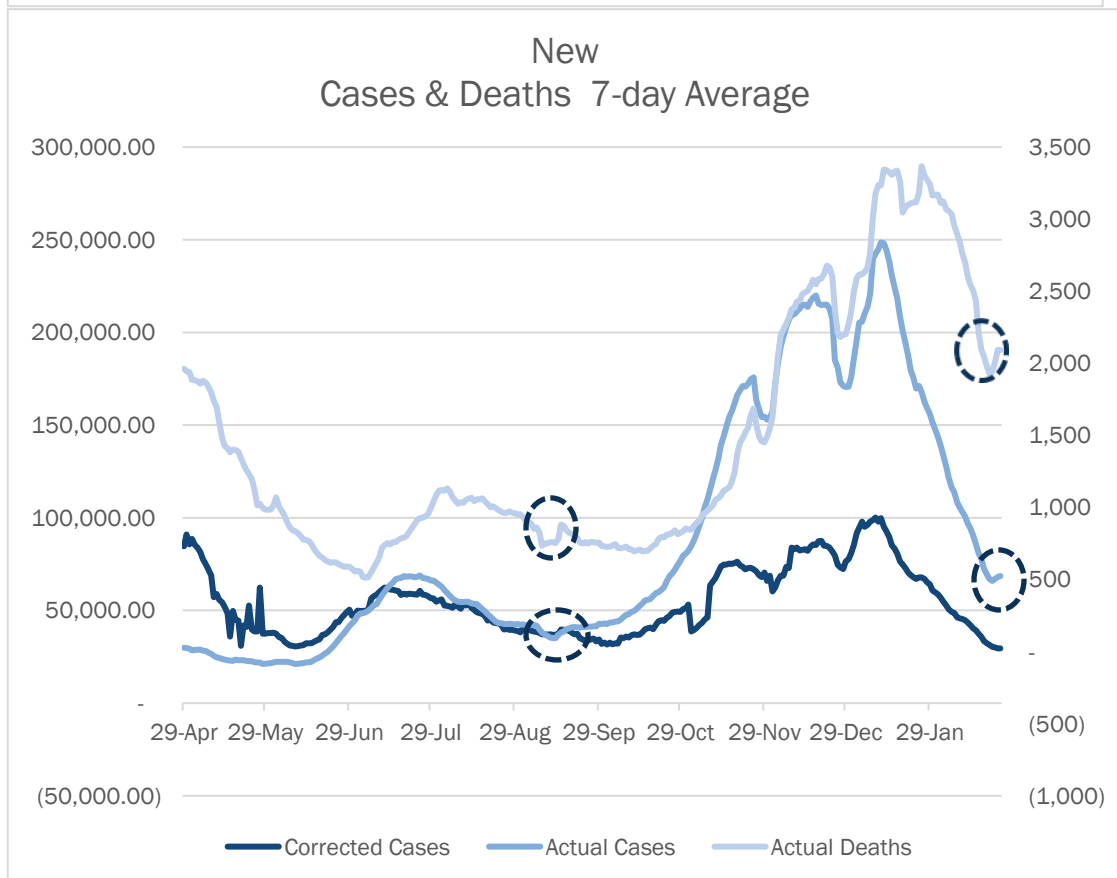

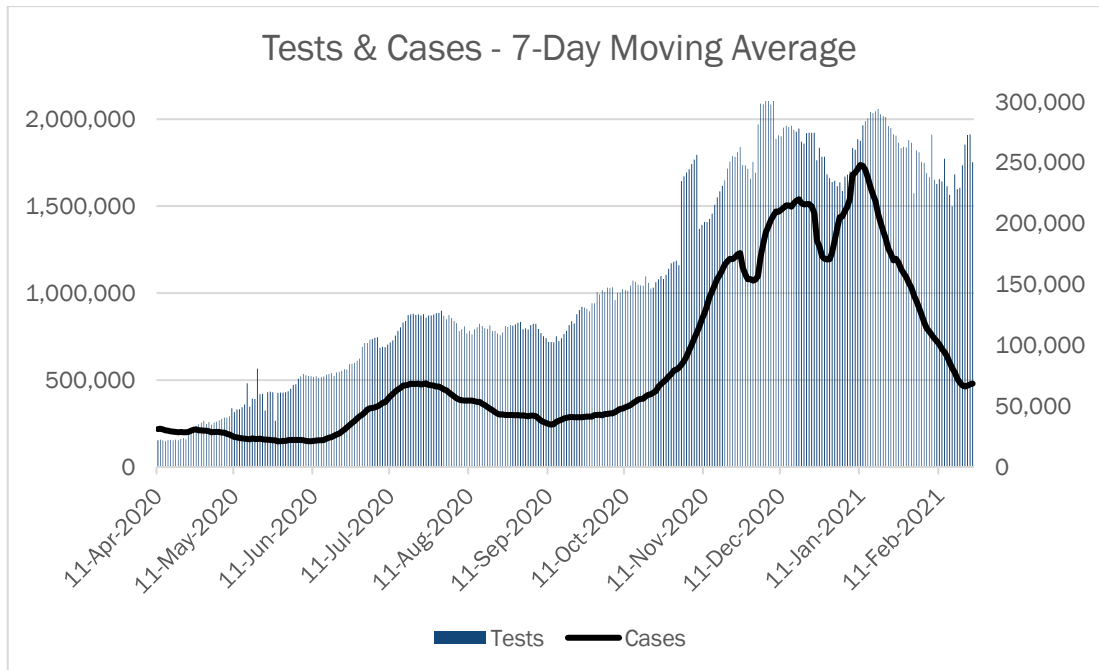

Cases were up, deaths were down slightly. If you look at the bottom chart in Exhibit 1, you can see in the circled areas a comparison between the events of the last few days following a long weekend and the same effects after the Labor Day long weekend. This comparison implies that the prevailing trend will resume after a few more days. We will see.

As usual serious cases have continued to fall, now only 45% of their peak.
